

### Step One:

First make sure your picture fits on the page, making the page size exactly the size of the image or maybe a little larger.

### Step Two:

Switch off all Colour Management in Corel Draw. Navigate to Tools, Color Management.

### Step Three:

Select Color Management Off from the Pop Up. (Lower Left Corner)

### Step Four:

Navigate to File, then to Publish to PDF

### Step 5:

This will open the Save As PDF Pop Up.

Choose Settings.

### Step 6:

Under General Choose Current Page.

Compatibility Choose Acrobat 5.0

### Step 7:

Under Objects

Switch off Compression by choosing None.

Switch off all downsampling.

If you have converted text to curves then choose Export all text as curves

### Step 8:

Under Advanced:

Tick Preserve Spot Colours if you are doing a Print & Cut Job

Check output style as RGB or CMYK depending on original art. Strongly recommend RGB for your design. See [Colour Management](#) for more details

Remove tick from Optimise for Web.

Now pick Ok and open exported file in Versa works.
