

### Step One:

Navigate to Edit in VersaWorks. Pick Preferences(E).

### Step Two:

This will open the preferences Chooser. Pick the **Roland@NET** tab.

### Step Three:

This will open the update Chooser window, You can choose, **Automatic updates**.

**Site:** (from version 2 you can choose Japan or the USA)

**Frequency:** Choose when you want VersaWorks to check for update.

**Proxy Server:** Set your Proxy server if necessary. (check with your network administrator, if you are not sure.) Normally you will leave this blank.

**Languages:** VersaWorks will check your regional settings and download the language set in your default language, if available, default will be English

**Colour Profiles:** This will download any new profiles that are available (not 3rd party profiles)

**Current Printer Model and Ink Type** should be your selection unless you want to download all profiles.

Next time you open VersaWorks, VersaWorks will check for available updates by checking with the server you choose.

### Trouble Shooting:

I am not connected to the Internet or my connection speed is very slow and I get timeout errors. How do I get my update?

Send us an e-mail or give us a call and we will write the necessary files for you on a CD. (If we need to deliver the CD, a delivery fee will be charged. Otherwise, there are no additional costs.)
